

# Indigenous Leadership Development (SDAF 0020)

## Project Description:

This SDAF project funds training of indigenous leaders, authorities and youth of the target communities in political, economic and social leadership issues in the global development context, as identified and prioritized by the communities themselves.

The training methodology is participatory and interactive, with course modules taught in Spanish and Quechua. Parallel to the training workshops, radio programs will be conducted through Radio Pio XII, for the general public.
